

Policy Statement

As a specialist vehicle movement company, our main objective through the nature of the business being a positive aspect is to control and prevent/limit/minimise pollution through the efficient transport and handling of customer owned vehicles from and to designated locations.

We will maintain, adherence to relevant transport, environmental legislation, and regulations, maintaining dialogue with the respective authorities in this regard. Our aim will be to strive for continual improvement through the review of our quality and environmental objectives and targets, and purposeful evaluation of our processes to minimise/control pollution, and to minimise risks. We are committed to complying with customer, statutory and regulatory requirements, and will continually improve the effectiveness of the integrated management system. The system will be reviewed at appropriate intervals, which will provide the framework for the setting and review of quality and environmental objectives and targets.

We aim to offer the most competitive, professional, and efficient service consistent with costs, and to ensure that the company's organisational goals and objectives are met in line with the customer's needs and expectations. We recognise the implications of the requirements as specified in the various regulations to which we operate, and we will ensure that the operations carried out comply with the above.

To meet the requirements of the above regulations, and the needs and expectations of our customers in a cost-effective manner, the company will operate a system dedicated to the "Right First Time Approach". It is a prime requirement of our approach to quality and environmental issues that each person recognises and adopts the company philosophy, and accepts the responsibility for the quality of his/her own output whilst working on behalf of the company. To facilitate and ensure such success, our system of operation has been defined in the system and its supporting documentation which has been compiled around the requirements of BS EN ISO 9001 and 14001, 2015. The requirements as specified in the above system are expected of all personnel.
